SANGO CERAMICS INDONESIA

Founded in 1977, Family-owned Sango Ceramics Indonesia has been producing quality tableware for four generations. In the beginning, Sango was a tableware import company that supplied solely to the local Indonesian market. Forty years and many important milestones later, Sango has now emerged as a thriving manufacturer with a global client base. Armed with long experience in the industry, strong technical competence and constantly updated technology, Sango is now one of the Industry's top brands and manufacturers.

Our vertically integrated facility gives us great strength. We have superb in-house know-how and capabilities for all processes, from product design to finished goods and in-house packaging development. This allows us to be flexible and enable us to fulfil all customer requests. We have our own in-house laboratory with the most up-to-date testing equipment which ensures consistent technical and quality standards, adhering to all international safety and durability standards.

Furthermore, our perseverance to make the factory more environment friendly has been acknowledged by our certifications of ISO as well as BSCI.

EXCELLENCE

In a bid to continuously fulfil our customer's requirements and achieve the highest satisfaction level, the factory has recently undergone a significant makeover: Top industry experts have been recruited to our team and we have redesigned our existing management structure into one with more predefined processes and principles. With these significant upgrades, we can better implement our customer-oriented policy and monitor effectiveness throughout the company.

The result is a rejuvenated factory with optimum level of productivity, efficiency and quality levels.

With these radical changes, Sango now has lead times which set industry standards being able to react quickly to customer requirements with on-time-in-full deliveries.

Efficient communications between departments within the company ensures prompt and accurate responses to all enquiries. This is an evolving process with the flexibility to change with market demands which can differ around the globe.

Looking forward, we will continue to strive to provide our customers with quality products at great value and competitive prices and continually take advantage of the latest technology.

We aspire to become even more customer-focused, more agile and dynamic as an organization and we will continue to be unrelenting in our pursuit of excellence!

Contact us to learn more about our company and its products.
